

NIKHIL KUMAR

B.Tech CSE Student | Aspiring Software Developer | DSA & Java Enthusiast

+91 9304929707 | nikhilkumar91020@gmail.com | Durgapur, West Bengal, India

linkedin.com/in/nikhil-kumar-728a19280 | github.com/debuggingnikhil | github.com/Immortal-27

OBJECTIVE

3rd-year B.Tech CSE student building strong foundations in Java and Data Structures & Algorithms, with hands-on experience in full-stack web development and cybersecurity. Currently deepening expertise in Java and Spring Boot to pursue a career as a Java Backend Engineer. Seeking a Software Development internship at NIT Arunachal Pradesh to apply problem-solving skills to real-world engineering challenges and grow as a backend developer.

EDUCATION

B.Tech - Computer Science & Engineering

NSHM Knowledge Campus, Durgapur

2023 - 2027 | Currently: 3rd Year

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML/CSS

Core CS: Data Structures & Algorithms (DSA), Object-Oriented Programming

Tools & Technologies: Git, GitHub, VS Code, Node.js, React, AES-256, QKD, Qiskit

Currently Learning: Java Backend Development with Spring Boot, Docker

Career Focus: Building strong DSA + Java fundamentals to become a Java Backend Engineer

FEATURED PROJECT

Quantum Secure Email System (QSES)

github.com/Immortal-27/QSES

A hybrid email security system encrypting data with AES-256 while securely generating and exchanging decryption keys via Quantum Key Distribution (QKD). Combines classical encryption with quantum communication, leveraging quantum physics to detect eavesdropping in real time — keys cannot be intercepted without alerting both parties.

Tech: Python, AES-256, QKD, Qiskit, Cryptography

CERTIFICATIONS

- IBM SkillsBuild - Multiple Certificates
- Python for Data Science (IBM)
- Cybersecurity Fundamentals (IBM)
- Web Development Essentials (IBM)
- AI Fundamentals (IBM SkillsBuild)

ACHIEVEMENTS & COMPETITIONS

HacTropika 2026 - Selected Participant

National-level 36-hour hackathon | Certificate of Achievement

- Competed against teams across India with the QSES project
- Demonstrated innovation in quantum-classical hybrid security

AREAS OF INTEREST

- Java Backend Development - Java, DSA, Spring Boot, scalable systems
- Cybersecurity & Cryptography - encryption algorithms and quantum security
- Full-Stack Web Development - building end-to-end web applications
- Quantum Computing - applying QKD and quantum protocols in software

SOFT SKILLS

Strong Communication • Team Collaboration • Problem Solving • Quick Learner • Attention to Detail
